SURF-FREESTYLE JUDGING RULES

General Judging Rules

Selection of judges

- (i) Only the WWT Sports Commission can make appointments and substitutions for an event.
- (ii) An attempt shall be made to ensure that no judge has a vested interest. There should not be family tie with a competitor.

Individual Scoring procedure

- In order to bring the variety criteria into effect, the judges won't count a repeated manoeuvre.

- Judging Criteria are applied to score individual waves or tricks performed.
- The maximum of attempts per wave or trick will be up to the Head Judge. A notice must be made on the Official Notice Board 30 minutes before the heat starts.
- One or two panels of judges, each panel comprising an odd number of judges, no less than three (3) in number, shall score each heat. When there are five (5) judges, the highest and the lowest scores per wave or scoring category will be withdrawn and the average scores of the other three (3) judges will be counted as the final wave or category score.
- If a judge misses a wave or a trick they should place an "M" and that score will be given points equal to the average to the nearest thousandth of a point (0.005 to be rounded upward) of the other judges' scores.
- The judges shall award each competitor's wave or trick or judging category points on a scale from 0.1 to 10.0, broken into one-hundredths increments (e.g 6.444).
- Each individual score is rounded to the nearest hundredths place. The rounded scores are added to calculate the final score.
- The scores of the respective competitors shall be tabulated together to determine the winner: highest points wins.
- The weight given to waves, tricks and judging categories will be announced by the Head Judge and in the Official Notice Board at least thirty (30) minutes before the start of the heat.
- If a competitor lands the trick wet and doesn't lose the board, the judges will still give some credit to the trick. It's at the discretion of each judge to consider if it's a crash or a wet landing and to consider how much credit they will give to the trick, based on the commitment, technical difficulty, height, and time spent going up to the board.
- The credit given to wet trick landings is directly related to the risk factor involved in the execution of the trick. For tricks with a high degree of risk factor, judges won't deduct points for a wet landing.

A trick is a crash only if the majority of the judges consider it as a crash. If the minority of the judges consider a trick as a crash, those crashes will be withdrawn and the judges will reconsider the trick in the other scoring categories.

- A crash will be considered when:
- a competitor finishes the trick by pulling the leash to get the wing back.
- when landing a trick, a competitor is capsized, losing control of the board or wing.
- a competitor lands a jump but loses the wing.
- a competitor lands a jump but crashes the wing into water and completely stops.

Judges may give credit to a landed trick that is not a crash when:

a competitor lands a jump and crashes the wing into the water, but manages to relaunch it and keep riding without completely stopping.

The credit given to such a trick is directly related to the risk factor and technicality involved in the execution of the trick.

It's at the discretion of each judge to consider how much credit they will give to the trick.

Overall Impression Scoring procedure

An overall impression score may be used in addition to the trick scores counting towards the final heat result. Criteria of variety, "wow" factor, smoothness, innovation, tricks landed vs crashes, and commitment impact the Overall Impression score. The points awarded to the Overall Impression score counting towards the final result per competitor during a heat will be announced by the Head Judge and posted in the Official Notice Board at least thirty (30) minutes before the start of the heat.

Judging Criteria

Judging criteria for the waves

Judging Criteria are applied to score individual waves ridden. Each judge analyses the following major elements when scoring a wave:

- (i) Degree of difficulty of the manoeuvres performed.
- (ii) Commitment in the manoeuvres performed and the risk taken to perform them.
- (iii) Variety and combination of manoeuvres within the same wave.
- (iv) Speed and power.
- (v) Flow and linking of manoeuvres.
- (vi) Size of the waves ridden, directly linked to the degree of difficulty of manoeuvres performed in each wave.
- (vii) Innovative and progressive manoeuvres.

It's important to note that the emphasis of certain elements is contingent upon the location and the conditions on the day, as well as changes of conditions during the day.

Competitors must combine the major key elements in order to be awarded scores in the excellent range

The following scale may be used to describe a wave ridden that is scored:

- 0 – 1.9 = Poor;
- 2.0 – 3.9 = Fair;
- 4.0 – 5.9 = Average;
- 6.0 – 7.9 = Good;
- 8.0 – 10.0 = Excellent.

Judging criteria for Freestyle tricks

(i) *Height and amplitude* – The combination of height and amplitude of the tricks completed during the heat. As the wind conditions increase, this aspect will exponentially become more and more into consideration, but only when the height and amplitude are achieved along with risk factor and technical difficulty.

(ii) *Technical Difficulty* – The technical difficulty of tricks completed during the heat.

(iii) *Power* – The power during the execution of the tricks. Power will be considered as a combination of speed into the trick to pop and speed out during the landing, height and amplitude during the trick.

(iv) *Risk factor* – The risk factor is directly linked to the power, height, amplitude and technical difficulty of the jump, but also to the commitment of the competitor and physical challenge during the execution, duration of the critical moment, and energy on the execution.

(v) *Smoothness* – Smoothness and fluidity during the execution and landing of tricks completed during the heat.

(vi) *Innovation* – Tricks that have never been landed in competition before.

Innovation factor

Extra coefficient for Innovation

Scores for innovative manoeuvres will be multiplied by a coefficient value depending on the level of difficulty to help incentivize innovations to be performed. After the average score comes up on the system, the Head judge will multiply it by the relative value for innovation tricks.

There are two extra coefficient values:

- The inverted manoeuvres will be multiplied by x 1.3
- The flat manoeuvres will be multiplied by x 1.2

FreeFly-Slalom Discipline

The Elimination procedure shall be

- Competitors' names shall be entered on the appropriate elimination ladder according to the event seeding and the heat distribution table below.
- Competitors with no ranking will be distributed in the WWT ladder according to the name drawing that shall be done by the Head Protest Judge at the first day mandatory meeting for all competitors before the competition starts.
- "Byes," if any, shall be positioned so that they are allocated to the most highly ranked competitors.
- Competitors shall ride all versus all, in several surf-slalom/heats. The declared winners shall advance on the elimination ladder.
- If a division has less than 20 competitors, it can be run as a full fleet race with all the competitors at once. The Full fleet can be only used in the long-distance format. It is recommended to don't run heats with a bigger fleet of 15 competitors.

Scoring FreeFly-Slalom Discipline

When FreeFly Slalom is run using an elimination system, competitors will score points based on the following principle. Competitors in the final shall score their finishing position (0.7 for 1st place). Competitors in a small final shall score their finishing position plus the number of competitors in the final. Competitors in previous heats shall score the average of the positions covered by all sailors who finished in the same position in the other heats in that round of the elimination.

(i) in a single 48 elimination with 12 riders in each heat.

Finishing Position	Points
FINAL	
1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9 th , 10 th , 11 th , 12 th	0.7, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
SMALL FINAL	
1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9 th , 10 th , 11 th , 12 th	13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24
ROUND 1	
7th, 8th, 9th, 10 th , 11 th , 12 th	26.5, 30.5, 34.5, 38.5, 42.5, 46.5

(iii) in a single 24 elimination with 12 riders in each heat.

Finishing Position	Points
FINAL	

1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10 th , 11 th , 12 th	0,7, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
SMALL FINAL	
1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10 th , 11 th , 12 th	13 ,14, 15 ,16, 17, 18, 19, 20, 21, 22, 23, 24

Scoring of Incomplete Heats

- Where the minimum number of heats for a valid race/elimination series has been completed but not all places determined, competitors qualified for heats which have not been run shall be awarded the total of the points for all the positions not decided, divided by the number of competitors in the remaining heats.
- An elimination needs to be completed including the finals to be scored for the event ranking.
- If the first elimination is completed including the semi-finals it will count as a valid race for the event ranking.
- All riders that qualified for the final which is incomplete will get rewarded the average points from positions 1st to 12th, and all the riders that qualify to the small finals which are incomplete will get the average points from 13th till 24th.

Number of Eliminations and discards

Depending upon the number of discards permitted, the highest, then second highest and third highest scores are discarded. The lowest total score, with discards, if any, taken into account, wins. Scores may be discarded as set out in the following table.

Nº OF RACE / ELIMINATIONS	DISCARDS
1 to 3	0
4 to 6	1
7 to 9	2
10 ore more	3
